Zetclass User Guide · 1

Everyday sign-in

For teaching staff, non-teaching staff, Admin, Director and Parents.

Who: every Zetclass user **Last updated:** 5 Nov 2026 **App version:** 20261125

Before you start

WORDS IN THIS SECTION

School name	The full name of your school.
User type	The group you belong to: Teaching staff, Non-teaching staff, Admin, Director or Parent.
Username	The name you type to sign in. Your school Admin gives it to you.

- Ask your school Admin for your **username** and your **first password**.
- Use any phone, tablet or computer with internet. No app to install.
- Check that you know which **user type** you are. Your Admin can tell you.

Sign in

WORDS IN THIS SECTION

School link	Your school's own web link, like zetclass.com/st-marys. It already knows your school.
Suggestion list	The list of school names that appears while you type. Tap yours.
Password	Your secret word. Tap Show to see what you typed.

1. Open your browser and go to `zetclass.com`.
   - **Shortcut:** your school may give you its own link, such as `zetclass.com/st-marys`. Then the school is already known: you do **not** type the school name (go straight to step 3). Tap *Choose a different school* if it is the wrong one.

2. In **School name**, start typing the full name of your school. A list appears. **Pick your school from the list.**

3. In **User type**, open the menu and choose: **Teaching staff**, **Non-teaching staff**, **Admin**, **Director** or **Parent / guardian**. A short note under the box explains each one.

4. In **Username**, type the username your Admin gave you.

5. In **Password**, type your password. Tap Show if you want to see what you typed.
6. Tap Sign in.

CHECK

You see the Zetclass dashboard, and your name and user type at the top right.

TIP

The next time you open Zetclass on the same phone or computer, your school name and user type are remembered. You only type your username and password.

Your first sign-in: choose a new password

WORDS IN THIS SECTION

Temporary password	A first password your Admin gave you. You change it the first time you sign in.
Strong password	A long password with capital letters, numbers and a symbol.

If your Admin gave you a **temporary password**, Zetclass asks you to set your own.

1. Type a new password in **New password**. It must have **at least 8 characters**.
2. Type it again in **Confirm**, then save.

TIP — A GOOD PASSWORD

Use 10 or more characters with a capital letter, a number and a symbol such as `!` or `#`. Do not use your name, phone number or "password".

Change your password later

WORDS IN THIS SECTION

Account menu	The menu you open by tapping your name at the top right.

1. Tap your name and user type at the top right [name ▾].
2. Tap Change password.

3. Enter your current password, then the new one, and save.

You can change your own password at any time. You **cannot** change your own username: only your school Admin can rename it.

Log out

WORDS IN THIS SECTION

Log out Signing out, so nobody else can use your account.

1. Tap your name at the top right.
2. Tap Log out.

IMPORTANT

Always log out on a shared or public computer.

What each user type can do

WORDS IN THIS SECTION

Teaching staff Class teachers and subject teachers.
Non-teaching staff Accountant, secretary, school manager, cleaner, security and others.
Director The owner or director. Can look and download, but not change.
View only You can see information but not change it.

User type	Can open	Can change records in
Teaching staff	Dashboard, Students, Assessment, Attendance	Assessment and Attendance
Non-teaching staff	Dashboard, Students, Finance, Communication, Administration, Inventory, Accounting, Payroll	Finance, Accounting, Payroll, Inventory, Students, Administration
Admin	Everything, including Settings	Everything
Director	Everything the Admin allows	Nothing: view and download only
Parent / guardian	Dashboard, Students, Assessment, Finance, Attendance, Communication (own child only)	Nothing: view only

The school Admin can adjust which sections each group can open (Settings → Roles).

Quick start for your user type

WORDS IN THIS SECTION

Dashboard	The first page after you sign in. A short summary of the school, or of your child.
Class score and exam score	The two marks for a subject. Together they make a total out of 100.
Register	The daily list of who is present or absent.
Ward	A child that a parent or guardian looks after at the school.
Access Control	The Settings page where the Admin adds people and resets passwords.

Find your user type below. Each part is short: what you will see, and the first things to do. Your Admin decides exactly which sections appear for you, so your menu may show a little more or less than described here.

- Teaching staff (class teachers and subject teachers)
- Non-teaching staff (accountant, secretary, school manager and others)
- Director
- Admin
- Parent / guardian

Teaching staff

Your job in Zetclass: enter your pupils' scores and take the daily register for the classes you teach.

1. Sign in. Choose **Teaching staff** as your user type. Your Admin gave you your username.
2. Open **Assessment**. Pick your **Class** and your **Subject** at the top. A class teacher sees every subject for the class. A subject teacher sees only the subjects given to them.
3. Type each pupil's **class score** and **exam score**, then tap Save scores. The page shows what each score is out of. The two scores are added to give a total out of 100.
4. Open **Attendance**. On the *Student Attendance* tab mark who is present or absent, then tap Save attendance. Use the *Conduct Notes* tab to write a short note about a pupil's behaviour.
5. Open **Students** to look up a pupil's details.

GOOD TO KNOW

- If Assessment says *You have no assigned classes*, ask your Admin to link your classes or subjects to your staff record.
- Poor network in class? Carry on. What you enter is saved on your device and sent when the network is back.

Non-teaching staff

Your job in Zetclass: the school office work: fees and payments, stock, money records, staff pay, messages and pupil records.

1. Sign in. Choose **Non-teaching staff** as your user type.
2. Look at the menu. You will see the sections your Admin turned on for you. These usually include **Finance** (fees and payments), **Inventory** (stock), **Accounting**, **Payroll**, **Communication** (messages), **Administration** and **Students**.
3. Start with the section that is your daily work. For example, an accountant begins in **Finance**, and a store keeper begins in **Inventory**.
4. Check the figure before you save. Receipts and totals are used by the school and by parents.

GOOD TO KNOW

- You cannot open **Settings** or change login accounts. Only the Admin can.
- Fees, payments and stock entries are saved even when the network is off, and sent later.

Director

Your job in Zetclass: to see how the school is doing. You can look and download. You cannot change records.

1. Sign in. Choose **Director** as your user type.
2. The **Dashboard** opens first. It is a summary of pupils, attendance, fees and money.
3. Open any other section (Students, Assessment, Finance, Attendance and so on) to look deeper. Use the download buttons you find there to keep a copy.

GOOD TO KNOW

- Everything is **view only**. If you want something changed, ask the Admin to change it.
- The Settings page is not shown to the Director.

Admin

Your job in Zetclass: you run the school's account. Only you can add or remove people, rename usernames, reset passwords and change school settings.

1. Sign in. Choose **Admin** as your user type.
2. The first time, set up the school (profile, academic year and term, classes, fees). **Guide 2: School Admin** shows every step.
3. Open **Settings** → **Access Control** to add a login for each teacher, staff member, Director or parent. Give each person their username and a first password.
4. Add your pupils and staff, either one by one or with the download-template, fill-in, upload method.
5. Open the **Subscription** page when it is time to renew.

LOOK AFTER YOUR OWN SIGN-IN

Your Admin account can change everything. Use a strong password, and never share it. If you forget it, use *Forgot password?* on the sign-in page.

Parent / guardian

Your job in Zetclass: to follow your child's progress. You can only see your own child (or children), and you can only look.

1. Sign in. Choose **Parent** as your user type. The school gave you a username and a first password. You choose your own password the first time.
2. The **Dashboard** shows a short summary for each child: the fees balance, days present and Student ID.
3. Tap `View report / attendance`, or open **My Ward**, to see your child's results and attendance.
4. Open **Finance** to see fees and payments. Open **Communication** to read notices from the school.

GOOD TO KNOW

- If the Dashboard says *No ward linked to this account*, tell the school office. They will link your child to your login.
- You cannot change anything. If a detail is wrong, tell the school office.

Working without internet (offline)

WORDS IN THIS SECTION

Offline	No internet, or a very weak one.
Saved on this device	Your work is kept safely on your phone or computer.
Sync	Zetclass sends the saved work to the server when the internet is back.
Keep me signed in	A tick box so the app opens again later, even without internet.

Zetclass keeps working when the network is slow or off. Whatever you enter is **saved on your device and synced automatically** when the network comes back. This covers pupil and staff details, **new registrations**, **scores**, **attendance**, **fees and payments**, and **stock**.

1. Sign in **once while you have internet**, and tick **Keep me signed in on this device** if it is your own phone or computer. Open the pages you need once so Zetclass can save them.
2. If the network drops, carry on working. A small message at the bottom says *Working offline*.
3. When the network returns, Zetclass sends your work by itself. The message says *Synced* ✓ and your screens refresh.

GOOD TO KNOW

- New ID numbers (such as ST0042) are set aside for your device in small batches, so two phones never use the same number.
- Logging out clears what Zetclass saved on the device. If something has not synced yet, Zetclass syncs it first, or warns you before it would be lost.
- Signing in, school settings, login accounts and text messages need internet.
- If you stay signed in, you are signed out after 12 hours.

SHARED COMPUTERS

Only tick *Keep me signed in* on your own device. Always tap **Log out** on a shared one.

Install Zetclass as an app

WORDS IN THIS SECTION

Install	Put Zetclass on your phone or computer like an app, with its own icon.
Home screen	The screen with all your app icons.

1. On the sign-in page tap ⤓ Install Zetclass on this device. After signing in you can also find **Install app on this device** in the menu at the top right.

2. On an iPhone, tap Share in Safari, then **Add to Home Screen**.

If you forget your password

WORDS IN THIS SECTION

Reset	Getting a new password.
Registered email	The school email address given when the school joined Zetclass.

- **Teaching and non-teaching staff, Director, Parents:** ask your school Admin. They set a new password for you in Settings → Access Control → Reset password. Then sign in and choose your own password.
- **School Admin:** on the sign-in page tap Forgot password?. A reset link is emailed to the school's registered email address. If it does not arrive (check Spam too), contact Zetranova on WhatsApp.

If it does not work

WORDS IN THIS SECTION

Disabled account	Your Admin has switched your sign-in off.
Subscription	The school's payment for Zetclass. If it has ended, the school can only look, not change.
Caps Lock	A keyboard key that makes every letter a capital. Passwords care about capitals.

You see	Likely cause	What to do
"We could not sign you in..."	One of: school name, user type, username or password is wrong.	Check each box. Make sure the user type is the one your Admin set for you. Check Caps Lock.
"Too many sign-in attempts"	Several wrong tries in a row.	Wait 15 minutes, then try again carefully.

"This account has been disabled"	Your Admin switched your login off.	Ask your school Admin.
"...subscription is inactive"	The school's subscription has ended or been paused.	Tell your school Admin. They can renew from the Subscription page.
Your school does not appear in the list	Spelling, or the school is not registered.	Type more of the name, or use your school's own link.

TIP — ADD TO YOUR PHONE'S HOME SCREEN

In your phone browser's menu, choose "Add to Home screen". Zetclass then opens like an app. *(The exact menu wording depends on your phone.)*

Update log

Date	App version	What changed
5 Nov 2026	20261118	First edition. Sign-in uses school name (with suggestions), user type, username and password.
5 Nov 2026	20261122	Signing in through the school's own link skips the school-name box.
5 Nov 2026	20261125	Added working offline (saved on the device, synced later), keep-me-signed-in, and installing as an app.
5 Nov 2026	20261125	Added "Quick start for your user type": a short getting-started part for Teaching staff, Non-teaching staff, Director, Admin and Parent.
